SELPHY CP1500

COMPACT PHOTO PRINTER

Fun Spontaneous Printing

PRINT FROM ANY DEVICE - ANYWHERE

Wherever your pictures are stored, it's easy to print them on a SELPHY CP1500. Print photos directly from your smart phone, tablet, camera, SD card, USB sticks or computer. When using a smart device, simply scan the QR code on screen and follow the prompts. Connecting and photo printing has never been easier!

QUALITY LONG LASTING PRINTS

Make your memories last. Photos printed with the SELPHY CP1500 feature a special film print over-coating that protects against colour bleed and fading for up to 100 years when stored in an album. The automatic correction function makes skin tones clearer and improves the contrast so your photos look their best, without any extra effort.

QUICK PRINTS RIGHT WHEN YOU WANT THEM

Get fast lab-quality prints in 41 seconds (Postcard size approx. 100 × 148mm), a handy 6 seconds faster than the SELPHY CP1300. Thanks to easy Wi-Fi connectivity, be ready to create really beautiful prints of your special memories at a moment's notice.

LIMITLESS CONNECTION

With the SELPHY CP1500, there's no limit to the number of smartphones that can be connected. Guests at parties and other events can conveniently print their own photos one after another. Including a QR code in prints also lets you share online albums, photo locations, or links to a video site, making printing even more exciting.

ADD A CREATIVE TOUCH

Depending on your preferred style, the SELPHY CP1500 is available in a minimal black and white unit. Canon's free SELPHY Photo Layout lets you add fun borders to your prints like stars, hearts and flowers. Give your photos that creative

PERSONALISE WITH LOGOS

You can now print images with png logos, without any special tools required. Simply upload the logo in the SELPHY Photo Layout app, and it automatically gets added to smartphone and camera image prints. It's great for adding that personalised touch for corporate events, weddings, parties etc.
